SUMMARY

A computer engineer with experience in network configuration, technical support, and software troubleshooting. Demonstrates strong problem-solving and decision-making skills in addressing technical issues efficiently. Skilled in server setup, switch and router configuration, and writing technical documentation. Committed to delivering reliable technical support and maintaining system operations across various IT environments.

WORK EXPERIENCE

Philippine Information Agency - Technical Support and Project Lead (OJT 360 Hours) June - August 2024

- Provided technical support at PIA Central Office, achieving 95% end-user satisfaction
- Resolved hardware and software issues—including printer, network, and webpage errors; performed system unit assembly/disassembly; conducted OS installation, system reformatting, and preventive maintenance of end devices
- Served as a Project Leader in developing a Fleet Management System (FMS) for PIA’s Administrative Division - Motorpool Section
- Handled the documentation for the FMS by following the Software Development Lifecycle - Waterfall Model

ArtIsCool - Visual Art Teacher (Part-time) May 2019 - July 2023

- Instructed students on different visual arts techniques.
- Assigned related art projects for students in elementary and high school grade levels.
- Encountered different types of clients and organizations in doing commission works.

EDUCATION

Bachelor of Science in Computer Engineering (BSCpE) - Magna Cum Laude August 2021 - July 2025

- Wesleyan University- Philippines (WU-P)
- Consistent Dean’s Lister, WU-P Academic Scholar, and CHED Merit Scholarship Program Beneficiary
 - Gained skills in network and server configurations, including Windows Servers 2008/2012/2019, switch and router setups, basic Linux scripting, VLSM, and CISCO technologies.
 - Developed "InternTrail", an OJT Centralized System designed to streamline internship processes within a college department, serving as the culmination of academic studies.
