SUMMARY

A computer engineer with practical experience in network configuration, hardware troubleshooting, and software support. Skilled in project management and SDLC models, enabling the development of systems such as 'InternTrail' and the Fleet Management System. Also demonstrates strong problem-solving abilities and decision-making skills for efficiently resolving technical issues.

WORK EXPERIENCE

Philippine Information Agency - Technical Support and Project Lead (OJT 360 Hours)   **June - August 2024**
- Served as a Project Leader in developing a Fleet Management System (FMS) for PIA's Administrative Division - Motorpool Section
- Handled the documentation for the FMS by following the Software Development Lifecycle - Waterfall Model
- Performed technical support duties across the regions of PIA Central Office
- Enhanced the ability to make efficient decisions in addressing real-world technical issues.

ArtIsCool - Visual Art Teacher (Part-time)   **May 2019 - August 2023**
- Instructed students on different visual arts techniques.
- Assigned related art projects for students in elementary and high school grade levels.
- Encountered different types of clients and organizations in doing commission works.

EDUCATION

Bachelor of Science in Computer Engineering (BSCpE)   **August 2021 - Present**
Wesleyan University- Philippines (WU-P)
- Known to be a determined and hardworking student leader
- Consistent Dean's Lister, WU-P Academic Scholar, and CHED Full-Merit Scholarship Program Beneficiary
- Gained skills in network and server configurations, including Windows Server, switch and router setups, VLSM, VLANs, trunking, and CISCO technologies.
- Developed "InternTrail", an OJT Management System designed to streamline internship processes within a college department, serving as the culmination of academic studies

SKILLS & ACHIEVEMENTS

- **Technical Skills:** Network Configuration, Hardware Troubleshooting and Maintenance, Software and Application Support, Project Management and Documentation, Experienced in using Waterfall and Agile SDLC Models
- **Soft Skills:** Organized and responsible, Above average writing skills, Efficient work and decision making
- **Major Awards/Activities:** Won 1st Runner Up at ICpEP 7th CpE Challenge Breadboard Competition and representative of the Philippines in CISCO Networking Academy- Asia Pacific, Japan, and China (APJC) NetAcad Riders 2024
